To: R3 UIC Mailbo R3 UIC Mailbo @epa.gov

Dear Source Water & UIC Section Ryan Hancharick,

I am a resident of Allegheny County, and I am concerned about the proposed Sedat 4A Injection Well polluting our drinking water source, the Allegheny River. The existing Sedat 3A Injection Well already failed once after being in operation only a few months. How long do you think it will take for a second injection well to pollute our water? Adding a second injection well doubles the risk to our drinking water. I demand that EPA keep our drinking water safe by denying the permits for the Sedat 4A Injection Well.

Sincerely,
